To whom it may concern

I Frank Hardacre, general Manager of 'AS Offshore Ghana Services Ltd' can confirm that 'Remote Site services' (Ghana) were contracted to our company as Chandler/supplier. The said company worked with us for six years and during this time I was in Ghana for three of these years.

I have to say that Remote Site Services were the best company that worked alongside us in Ghana. Their service was first class and I have no problem with recommending them to any other company.

NB – I have since moved to Saudi Arabia but anyone reading this reference is more than welcome to call me for a follow up confirmation on +966 (0) 50336 5164

Yours Respectfully,
.....
Frank Hardacre.
